Summary

Full-stack web developer based in Lima, Peru, building with .NET, Spring Boot, and React. Background in team leadership and quality management brings strong communication and reliability to technical project work.

Technical Skills

Frontend: React + Vite, Tailwind CSS, JavaScript, HTML / CSS

Backend: .NET Core / C#, Spring Boot / Java, PostgreSQL / SQL Server, REST APIs

Tools: Git / GitHub, Vercel / Netlify, Figma, Postman

Professional Experience

Cibertec — Academic Projects

Lima, Peru

Full-Stack Developer

2024 – Present

- Built and led development on multiple team projects across the full stack, applying clean architecture and REST API design.
- Deployed real-world projects end-to-end, from local development through production hosting.

Majorel

Lima, Peru

Regional QA & Training Manager

2020 – 2022

- Grew from customer service associate to overseeing QA and training across two sites (Peru and Colombia), managing local QA managers and 14 QAs total.
- Tracked site KPIs and led root-cause analysis on performance dips; presented results in weekly client leadership calls.
- Owned training and induction scheduling for new hires; represented both sites in global process meetings.

Projects

heygabo.dev

heygabo.dev

Personal portfolio site built with React + Vite and a hand-rolled design system, deployed on Vercel.

heygabo.now

Live "where is Gabo right now" dashboard integrating Spotify, Steam, GitHub, weather, and NBA APIs into one page.

MicroViewer

Pathology education web app built with .NET Core and React, using a clean DatabaseExecutor / Repository / DTO architecture.
